

Positive Scenarios:

Scenario:

As a user

When I enter all the fields correctly I should be able to save the booking

Status: PASS

Scenario:

As a User

I should be able to do multiple bookings with same values in first name and surname fields

Status: PASS

Scenario:

As a User

I should be able to delete my booking

Status: PASS

Scenario:

As a User

I should be able to enter decimal values to Price field

Status: PASS

Scenario:

As a User

I should be able to save long names in names fields and large number in price fields.

Status: PASS

Scenario:

As a User I should be able to enter special characters into firstname and surname

Status: PASS

Scenario:

As a User I should see Success message when I am able to save the booking successfully

Status: FAIL

Scenario:

As a User

I need to see a prompt popup to confirm the deletion of booking, as I can press DELETE by mistake at any time.

Status: FAIL

Scenario:

As a User I should see clear separation between the columns when I enter long names or large numbers

Status: FAIL

Reason: Giving large numbers in price field and long names in first name and surname fields is making the fields overlap

Scenario:

As a User I should see correct representation if price is large.

Status: FAIL

Reason: Price field is getting converted into floating points. Better to represent them as big decimals.

Negative Scenarios:

Scenario:

As a User

I should see validation errors when I enter gibberish into date fields

Status: Fail. Clicking on Save is converting gibberish values to: 1970-01-01

Scenario:

As a User I should be able to see validation errors if I don't enter mandatory fields or enter wrong values.

Status: FAIL

Reasons:

No validation Errors when Saved the Booking without First name

No Validation Errors when saved the booking without Surname

No Validation Errors when saved the booking Without empty price filed

No Validation Errors When saved booking without entering Checkin And Checkout dates.

No Validation Errors when entered characters into price field

Scenario:

As a user I should not be able to book with checkin Date in the past

Status: FAIL

Scenario:

As a User I should not be able to save booking when checkout time is prior to checkin Date

Status: FAIL

Scenario:

As a Business entity I should not allow user to make booking with 0 price and negative price.

Status: FAIL

Reason: Able to book with price as 0 and negative numbers
